Education

HIT

B.Sc. COMPUTER SCIENCE

2023-2026

HIT course

AI BUSINESS ANALYTICS

2025

TECHNICAL SKILLS

Languages:

JavaScript, Python, SQL, C, HTML, CSS

Development:

React.js, Node.js, Express.js, MySQL, REST APIs, Git

Testing:

Postman, API Testing, End-to-End Testing, Debugging, Bug Tracking

Analytics:

Excel, Tableau, Data Analysis

Skills

- Problem Solving
- Software Troubleshooting
- Analytical Thinking
- Team Leadership
- Operational Planning
- Customer Communication
- Working Under Pressure
- Independent Learning

Summary

Computer Science graduate with hands-on experience in full-stack development, software testing, API validation, debugging, database operations, and system analysis. Combines a strong technical foundation with leadership, operational coordination, customer communication, analytical thinking, and experience working under pressure. Quick learner with experience across end-to-end application flows and cross-functional teamwork.

Experience

TEAM COMMANDER

ISRAEL DEFENSE FORCES (IDF)

2021-2022

- Managed a team of 14 soldiers, overseeing daily operations and task execution.
- Planned, scheduled, and monitored multiple assignments under dynamic conditions.
- Applied structured problem-solving and decision-making under pressure.
- Completed advanced leadership training through the IDF Commanders Course.

OPERATIONS COORDINATOR

CIVILIAN OPERATIONS CENTER

OCT-DEC 2023

- Managed communication with international stakeholders, investors, and donors.
- Coordinated operational requests, logistics, and resource allocation based on changing needs.
- Handled multiple requests simultaneously while maintaining clear and timely communication.
- Worked in a dynamic environment requiring prioritization, coordination, and rapid problem-solving.

PROJECTS

FULL BIN DETECTION SYSTEM - FULL STACK

- Built a responsive frontend using React.js, HTML, and CSS.
- Developed backend functionality with Node.js and Express.js.
- Designed and managed MySQL database records and operations.
- Connected frontend and backend through REST APIs.
- Debugged application issues across frontend, backend, API, and database layers.

BLOCKCHAIN RENTAL SMART CONTRACT PLATFORM

- Built the application interface and integrated frontend/backend flows.
- Created Solidity smart contracts for owners and tenants.
- Implemented end-to-end rental and payment flows.
- Debugged and validated interactions between application components.
- Worked collaboratively on development, integration, and testing.
