

# YAHIEL MALKA

Junior AI Solution Engineer | COMPUTER SCIENCE GRADUATE

## Summary

Computer Science graduate with a strong technical and analytical background and hands-on experience in Python, SQL, software development, API integration, debugging, and end-to-end testing. Experienced in developing and troubleshooting software applications across backend, frontend, API, and database components. Strong problem-solving skills, attention to detail, and ability to quickly learn and adapt to new technologies. Highly motivated to develop AI-driven solutions, automations, and reliable software products in a collaborative environment.

## Education

HIT | 2023-2026

B.Sc. COMPUTER SCIENCE

**Relevant Coursework:** Data Structures, Algorithms, Object-Oriented Programming

HIT course | 2025

AI BUSINESS ANALYTICS

- Hands-on experience with data analysis, Excel, Tableau, and data visualization
- Analyzed user behavior and data to identify trends and generate business insights

## TECHNICAL SKILLS

### PROGRAMMING & DATA

Python, SQL, JavaScript, C

### AI & ANALYTICS

AI Business Analytics, Data Analysis, Tableau, Excel

### BACKEND & DATABASES

Node.js, Express.js, REST APIs, MySQL

### DEVELOPMENT & TESTING

Git, Postman, API Testing, Debugging, End-to-End Testing

### FRONTEND

React.js, HTML, CSS

## Experience

### OPERATIONS COORDINATOR

CIVILIAN OPERATIONS CENTER

OCT-DEC 2023

- Coordinated operational requests and resources based on changing needs and priorities.
- Managed and prioritized multiple tasks in a fast-paced, time-sensitive environment.
- Collaborated with international stakeholders and internal teams to support operational requirements.
- Identified issues, adapted to changing requirements, and supported effective solutions.
- Maintained clear communication and follow-up across multiple ongoing activities.

### TEAM COMMANDER

ISRAEL DEFENSE FORCES (IDF)

2021-2022

- Managed a team of 14 soldiers and coordinated daily operational activities.
- Planned, prioritized, and monitored multiple assignments simultaneously.
- Adapted quickly to changing requirements and resolved operational issues under pressure.
- Maintained clear communication, accountability, and timely execution across the team.

## PROJECTS

### FULL BIN DETECTION SYSTEM - FULL STACK

- Developed an end-to-end application using React.js, Node.js, Express.js, and MySQL
- Designed and implemented backend functionality and REST API endpoints
- Integrated frontend, backend, API, and database components
- Managed application data flows and MySQL database operations
- Tested REST APIs and end-to-end application functionality using Postman
- Debugged and resolved issues across multiple system components

### BLOCKCHAIN RENTAL SMART CONTRACT PLATFORM

- Developed a Web3 apartment rental application as part of a collaborative software project.
- Developed Solidity smart contracts supporting owner and tenant workflows.
- Integrated frontend application components with blockchain-based smart contracts.
- Implemented rental, payment, and contract interaction flows.
- Tested end-to-end application functionality and debugged integration issues across system components.

## Skills

- Problem Solving
- Analytical Thinking
- Attention to Detail
- Debugging & Troubleshooting
- Independent Learning
- Adaptability
- Research & Learning
- Team Collaboration
- Time Management
- English – Professional Working Proficiency
