

YAHIEL MALKA

Junior Cybersecurity | COMPUTER SCIENCE GRADUATE

Summary

Computer Science graduate with a strong technical background and hands-on experience in software troubleshooting, debugging, APIs, databases, and end-to-end application flows. Experienced with Python, SQL, backend systems, REST APIs, and application integrations. Strong analytical and problem-solving skills, attention to detail, and ability to quickly learn new technologies and technical environments. Highly motivated to develop professionally in cybersecurity, cloud security, and information security.

 Holon, Israel

Education

HIT | 2023-2026

B.Sc. COMPUTER SCIENCE

Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming

HIT course | 2025

AI BUSINESS ANALYTICS

- Hands-on experience with data analysis, Excel, Tableau, and data visualization
- Analyzed user behavior and data to identify trends and generate business insights

TECHNICAL SKILLS

PROGRAMMING & SCRIPTING

Python, JavaScript, SQL, C

SYSTEMS & TECHNOLOGIES

REST APIs, MySQL, Node.js, Express.js

TESTING & TROUBLESHOOTING

Postman, API Testing, Debugging, Software Troubleshooting, End-to-End Testing

DEVELOPMENT & TOOLS

Git, React.js, HTML, CSS

NETWORKING FUNDAMENTALS

TCP/IP, HTTP/HTTPS, Client-Server Architecture

Experience

OPERATIONS COORDINATOR

CIVILIAN OPERATIONS CENTER

OCT-DEC 2023

- Coordinated operational requests and resources based on changing needs and priorities.
- Managed and prioritized multiple tasks in a fast-paced, time-sensitive environment.
- Collaborated with international stakeholders and internal teams to support operational requirements.
- Identified issues, adapted to changing requirements, and supported effective solutions.
- Maintained clear communication and follow-up across multiple ongoing activities.

TEAM COMMANDER

ISRAEL DEFENSE FORCES (IDF)

2021-2022

- Managed a team of 14 soldiers and coordinated daily operational activities.
- Planned, prioritized, and monitored multiple assignments simultaneously.
- Adapted quickly to changing requirements and resolved operational issues under pressure.
- Maintained clear communication, accountability, and timely execution across the team.

PROJECTS

FULL BIN DETECTION SYSTEM - FULL STACK

Developed an end-to-end application integrating frontend, backend, REST APIs, and MySQL database components.

- Developed backend functionality using Node.js and Express.js
- Integrated frontend and backend components through REST APIs
- Managed and validated MySQL database operations and application data flows
- Tested REST APIs and end-to-end system functionality using Postman
- Debugged and troubleshooted issues across frontend, backend, API, and database components

BLOCKCHAIN RENTAL SMART CONTRACT PLATFORM

- Developed a Web3 apartment rental platform as part of a collaborative project
- Developed Solidity smart contracts supporting owner and tenant workflows
- Integrated frontend components with blockchain-based smart contracts
- Tested and validated end-to-end application and smart contract flows
- Debugged integration issues across application components

Skills

• Technical

Troubleshooting

• Problem Solving

• Analytical Thinking

• Attention to Detail

• Independent Learning

• Technical Orientation

Working Under Pressure

• Team Collaboration

• Adaptability

English – Professional Working Proficiency
