HIT | 2023-2026

B.Sc. COMPUTER SCIENCE

HIT course | 2025

AI BUSINESS ANALYTICS

Hands-on experience with Excel, Tableau, data analysis, and visualization

Analyzed user behavior, retention, and business-related data

Analyzed data to identify trends and generate actionable business insights

TECHNICAL SKILLS

Data & Analytics:

SQL, Python, Excel, Tableau, Data Analysis, Data Visualization

Databases:

MySQL, SQL, Database Operations

Development & Technical:

JavaScript, React.js, Node.js, Express.js, REST APIs

Tools:

Git, Postman, Microsoft Office

Experience

OPERATIONS COORDINATOR

CIVILIAN OPERATIONS CENTER

OCT-DEC 2023

- Coordinated multiple operational requests, logistics, and resource allocation based on changing priorities.
- Managed multiple tasks simultaneously in a fast-paced and time-sensitive environment.
- Maintained clear communication with international stakeholders and internal teams.
- Monitored ongoing operational needs and responded quickly to changing requirements.
- Applied prioritization, problem-solving, and attention to detail to support smooth daily operations.

TEAM COMMANDER

ISRAEL DEFENSE FORCES (IDF)

2021-2022

- Managed a team of 14 soldiers while overseeing daily operational activities and task execution.
- Planned, scheduled, and monitored multiple assignments simultaneously.
- Responded to changing operational requirements and solved issues under pressure.
- Maintained accuracy, responsibility, and timely execution in a dynamic environment.

PROJECTS

FULL BIN DETECTION SYSTEM - FULL STACK

Developed a full-stack waste management platform for monitoring trash bins and replacement needs.

- Designed and managed MySQL database records and operations
- Managed and processed bin data, status updates, and application records
- Connected frontend and backend components through REST APIs
- Developed backend functionality using Node.js, Express.js, and MySQL
- Validated data flows across frontend, backend, APIs, and database components

BLOCKCHAIN RENTAL SMART CONTRACT PLATFORM

- Developed a Web3 apartment rental platform as part of a group project
- Integrated frontend, backend, and blockchain data flows
- Worked collaboratively on development, integration, testing, and troubleshooting

Skills

- Analytical Thinking
- Team Collaboration
- Data Analysis
- Communication Skills
- Problem Solving
- Time Management
- Attention to Detail
- English – Professional Working Proficiency
- Independent Learning
- Technical Orientation
