Education

HIT | 2023-2026
B.Sc. COMPUTER SCIENCE

HIT course | 2025
AI BUSINESS ANALYTICS

- Hands-on experience with Excel, Tableau, data analysis, and visualization
- Analyzed user behavior, retention, and business-related data
- Worked with data to identify trends and generate actionable insights

TECHNICAL SKILLS

Data & Analytics:

SQL, Excel, Tableau, Data Analysis

Testing & Troubleshooting:

Postman, API Testing, Debugging, Software Troubleshooting

Development:

JavaScript, Python, React.js, Node.js, Express.js, MySQL, REST APIs

Tools:

Git, Postman, Microsoft Office

Experience

OPERATIONS COORDINATOR

CIVILIAN OPERATIONS CENTER

OCT-DEC 2023

- Coordinated multiple operational requests, logistics, and resource allocation based on changing priorities.
- Managed multiple tasks simultaneously in a fast-paced and time-sensitive environment.
- Maintained clear communication with international stakeholders and internal teams.
- Monitored ongoing operational needs and responded quickly to changing requirements.
- Applied prioritization, problem-solving, and attention to detail to support smooth daily operations.

TEAM COMMANDER

ISRAEL DEFENSE FORCES (IDF)

2021-2022

- Managed a team of 14 soldiers while overseeing daily operational activities and task execution.
- Planned, scheduled, and monitored multiple assignments simultaneously.
- Responded to changing operational requirements and solved issues under pressure.
- Maintained accuracy, responsibility, and timely execution in a dynamic environment.

PROJECTS

FULL BIN DETECTION SYSTEM - FULL STACK

Developed a full-stack waste management platform for monitoring trash bins and replacement needs.

- Developed and managed application flows across frontend, backend, APIs, and MySQL database
- Managed and validated database records and status updates
- Conducted API testing, debugging, and end-to-end validation using Postman
- Identified and troubleshooted application issues across multiple system components

BLOCKCHAIN RENTAL SMART CONTRACT PLATFORM

- Built the application interface and integrated frontend/backend flows
- Created Solidity smart contracts for owners and tenants
- Implemented end-to-end rental and payment flows
- Debugged and validated interactions between application components
- Worked collaboratively on development, integration, and testing

Skills

- Technical Troubleshooting
- Analytical Thinking
- Attention to Detail
- Problem Solving
- Multitasking & Prioritization
- Working Under Pressure
- Working Under Pressure
- Team Collaboration
- Time Management
- Independent Learning
- English – Professional Working Proficiency
