

YAHIEL MALKA

Junior Software Developer | COMPUTER SCIENCE GRADUATE

Summary

Computer Science graduate with hands-on experience developing end-to-end software applications using Python, JavaScript, SQL, Node.js, and React. Strong foundation in object-oriented programming, data structures, algorithms, REST APIs, and database systems. Experienced in debugging, troubleshooting, and integrating frontend, backend, API, and database components. Strong analytical and problem-solving skills with the ability to quickly learn and adapt to new technologies.

Holon, Israel

Education

HIT | 2023-2026

B.Sc. COMPUTER SCIENCE

Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming

HIT course | 2025

AI BUSINESS ANALYTICS

Hands-on training in data analysis, Excel, Tableau, and data visualization.

Experience

OPERATIONS COORDINATOR

CIVILIAN OPERATIONS CENTER

OCT-DEC 2023

- Coordinated operational requests and resources based on changing needs and priorities.
- Managed and prioritized multiple tasks in a fast-paced, time-sensitive environment.
- Collaborated with international stakeholders and internal teams to support operational requirements.
- Identified issues, adapted to changing requirements, and supported effective solutions.
- Maintained clear communication and follow-up across multiple ongoing activities.

TEAM COMMANDER

ISRAEL DEFENSE FORCES (IDF)

2021-2022

- Managed a team of 14 soldiers and coordinated daily operational activities.
- Planned, prioritized, and monitored multiple assignments simultaneously.
- Adapted quickly to changing requirements and resolved operational issues under pressure.
- Maintained clear communication, accountability, and timely execution across the team.

PROJECTS

FULL BIN DETECTION SYSTEM - FULL STACK

- Developed an end-to-end full-stack waste management application using React.js, Node.js, Express.js, and MySQL.
- Designed and implemented backend functionality and REST API endpoints.
- Integrated frontend and backend components and managed application data flows.
- Designed and managed MySQL database operations for bin locations, status, and fill-level data.
- Tested REST APIs and end-to-end application functionality using Postman.
- Debugged and resolved issues across frontend, backend, API, and database components.

BLOCKCHAIN RENTAL SMART CONTRACT PLATFORM

- Developed a Web3 apartment rental application as part of a collaborative software project.
- Developed Solidity smart contracts supporting owner and tenant workflows.
- Integrated frontend application components with blockchain-based smart contracts.
- Implemented rental, payment, and contract interaction flows.
- Tested end-to-end application functionality and debugged integration issues across system components.

TECHNICAL SKILLS

PROGRAMMING LANGUAGES

Python, JavaScript, SQL, C

COMPUTER SCIENCE

Data Structures, Algorithms, Object-Oriented Programming (OOP)

BACKEND & DATABASES

Node.js, Express.js, REST APIs, MySQL, SQL

FRONTEND

React.js, HTML, CSS

DEVELOPMENT & TESTING

Git, Postman, Debugging, API Testing, End-to-End Testing

Skills

- Problem Solving
- Analytical Thinking
- Debugging & Troubleshooting
- Object-Oriented Programming
- Attention to Detail
- Team Collaboration
- Independent Learning
- Adaptability
- Time Management
- English – Professional Working Proficiency
